A Developmental English Proficiency Test

ADEPT

The ADEPT is a valid and reliable oral language assessment instrument (aligned with the CELDT) that can be used with students across grade levels K-8.

ADEPT assesses a student's ability to understand and generate utterances using a scope and sequence of language forms or structures, across the five levels of English proficiency.

ADEPT results can help teachers:

- Monitor student progress in English proficiency
- Identify a student's instructional level for Systematic ELD instruction
- Understand a student's language abilities for differentiated instruction
- Inform planning for Systematic ELD, Frontloading Language, and Reading/Language Arts Instruction

The 2.5-hour ADEPT training includes viewing of an interactive DVD, practice administering and scoring ADEPT sub-tests, analyzing results, and participating in small group discussions regarding instructional implications.
