Vehicle Safety

- Always lock car doors after entering or leaving your car
- Park in well-lit areas
- Have your car keys in your hand so that you do not have to linger before entering your car. Keys can also serve as a possible weapon against an attacker.
- Check the back seat before entering your car.
- If you think you are being followed, drive to a public place or police station.
- If your car breaks down, open the hood and attach a white cloth to the car antenna. If someone stops to help, stay in your locked car and ask them to call the police or a garage.
