## Department of Psychology

If you are planning to major in Psychology or just thinking about the possibility, the Psychology Faculty would welcome the opportunity to meet you individually to talk about your interest, tell you more about the major, advise you about courses and the opportunities for you to gain experience during your undergraduate years. Our offices, and the student Department Assistants' office, are located in Swenson. Our regular office hours are posted on our doors or you can call or email for an appointment.

The full time Psychology Faculty are:

Dr. Rainer Diriwächter (x3442) Swenson 241 rdiriwae@callutheran.edu	Dr. Julie Kuehnel (x3454) Swenson 237 kuehnel@callutheran.edu
Dr. Amanda ElBassiouny (x3974) Swenson 238 aelbassiouny@callutheran.edu	Dr. Andrea Sell (x3781) Swenson 207 asell@callutheran.edu
Dr. Marissa Ericson (x3583) Swenson 210 mericson@callutheran.edu	Dr. Nicole Talarico (x3440) Swenson 211 ntalarico@callutheran.edu
Dr. Jodie Kocur (x3441) Swenson 240 jkocur@callutheran.edu	Dr. Ariana Young (x3267) Swenson 208 ayoung@callutheran.edu

Also, look for the monthly issue of the Psychobabble, written by our Department Assistants with articles contributed by other students. It will provide you with information about things going on in the department (i.e., Psych Club, Psi Chi, etc), in the field of psychology, job opportunities, and hopefully a few laughs.

Whether you are planning on stopping at a BS or BA degree or plan on going on for a masters or doctorate in Psychology, gaining experience during college is important. Therefore, we post internship opportunities through the CLU Career Center in the Student Union, some on the Psychology Department Homepage, and we put a few in each issue of the Psychobabble. These experiences are not only important for your future, but can help you decide what you like to do (+don't like), and bring your textbooks "alive."

**Psychology Department**  
60 West Olsen Road #3800
