PUPIL PERSONNEL SERVICES CREDENTIAL

GUIDELINES FOR WORKING IN SCHOOLS

As you begin the school counseling Practicum and Field Studies placements, it is important to keep in mind that you are being given this opportunity by dedicated professionals. These counselors are faced with heavy caseloads and they need your full cooperation and maximum effort. As a Practicum or Field Studies student, you should think of yourself as a member of the school staff. You should strive to become as involved in school activities as possible. Your placement this year is an opportunity to not only increase your technical skills as a counselor, but to also become familiar with school policies and procedures. With this in mind, please remember the following expectations/issues throughout your placement:

1. You represent yourself, California Lutheran University, your professors, and your site supervisor. Please respect the trust being placed in you to conduct yourself in an honest, ethical manner. You should abide by professional ethical codes at all times.

2. Your site supervisor, in particular, is placing a great deal of trust in you. Please show respect for him/her, by seeking his/her input and listening to his/her direction and advice.

3. Make a schedule with your site supervisor and keep it.

4. Respect the fact that the primary function of schools is to teach. Your role is to support teachers so that they can provide a better learning experience for students.

5. Contact parents/legal guardians (by phone or home visit) only after discussion with your site supervisor.

6. Familiarize yourself with the school emergency plan and procedures to follow in a physical or psychological crisis. Ask your site supervisor what you are to do if a student expresses suicidal thoughts.

7. Meet with the school principal. Introduce yourself and inquire about his/her expectations and hopes for your work as a counseling Practicum/Field Studies student.

8. Follow all appropriate procedures for looking at information in students’ cum folders. Do not look at cum folders on your own unless cleared by your site supervisor.

9. When in doubt, wait and get advice from your site supervisor, your University Supervisor, or at your supervision (Practicum/Field Studies) seminar. Most things can wait a few days without creating a problem. In emergency situations, follow appropriate school procedures.
The following roles are assigned to the field candidate, the site supervisor, and the University supervisor:

**Field Candidate**

For each fieldwork course (Practicum and Field Studies), the candidate will:

1. Meet with your advisor to discuss readiness for fieldwork.

2. Meet with the Counseling and Guidance Field Work Coordinator to discuss opportunities for site placement.

3. Meet with a potential site supervisor to discuss and develop a written fieldwork plan. The Field Experience Planning Form is to be submitted electronically to the University Supervisor after approval from the Site Supervisor and Candidate.

4. Submit a completed fieldwork application online by the application deadline. Your application is not complete until it has been electronically signed and submitted by your site supervisor to the Fieldwork Coordinator.

5. Once the application has been approved, enroll in the appropriate Practicum or Field Studies course.

6. **Attend all regularly scheduled seminars conducted by the University supervisor.** Missing a seminar may result in a no credit in the course.

7. Carry out the activities at the site as described in the Pupil Personnel Services Credential handbook.

8. Arrange for the University supervisor to meet the site supervisor during the site visit for Practicum, and during the first site visit for both Field Studies.

9. Arrange for appropriate observations for the University supervisor when visits are scheduled.

10. Keep an electronic log of field hours for both Practicum and Field Studies in Toggl. A report of your hour log will be attached to the Field Log Overview form and submitted for review and electronic signature by the site supervisor and the University supervisor when field hours have been completed.
11. Have the fieldwork formative and summative evaluation for Practicum and Field Studies completed and electronically signed by the site supervisor. After the site supervisor has signed the evaluation, the candidate and University supervisor will review and electronically sign the evaluation. The formative evaluation should be submitted once you have completed half of the required hours at your site. The summative evaluation should be submitted once you have completed all of the required hours at your site. Your site supervisor will not be able to complete your summative evaluation until you submit your Field Log Overview form and hour log.

Site Supervisor
The site supervisor, who must be an appropriately licensed/credentialed professional for Practicum and an experienced holder of the Pupil Personnel Services credential (for at least two years) for Field Studies (EDCG 533, 534, and 540), will:

1. Meet with the candidate, review the list of required activities, assist the candidate in developing a written individualized training plan to be submitted on the Field Experience Planning Form, and signify willingness to supervise the candidate by approving and electronically signing the fieldwork application form.

2. Meet or speak with the University supervisor as necessary during field experience.

3. **Supervise the candidate** (at least one hour per week face to face) and continually evaluate the candidate’s progress, reviewing hour log reports on a regular basis.

4. Contact the University supervisor during the semester to design a remediation plan for any candidate who is not performing adequately.

5. A mid-semester Formative Evaluation is required for all candidates and will be submitted online. The candidate will email a link to you after they have completed half of the required hours in their placement.

6. Complete the online Summative Evaluation form at the end of the candidate’s field experience and verify the number of field hours the candidate has completed. You will not be able to complete the Summative Evaluation until the candidate has submitted their Field Log Overview form for your review and electronic signature.

The University supervisor of Practicum and Field Studies will:

1. Review and electronically sign the site supervisor’s mid-semester Formative Evaluation, and develop a plan with the site supervisor and candidate to remediate deficits.

ELECTRONIC FORMS OVERVIEW

Fieldwork Application
Upon completing your portion of the online application, the site supervisor indicated on your application will receive an email requesting additional information and their electronic signature. Upon site supervisor approval, your application will be sent to the Field Work Coordinator for approval and you will receive an email allowing you to save or print a copy of the application for your records. In order to submit an application for fieldwork you are required to have professional liability insurance. Please be prepared to upload evidence of your proof of coverage prior to beginning your application. When you are ready to begin your application, visit the Student Resources webpage, locate the PPS section, click the “Application for Fieldwork” link, sign in when directed to your MyCLU account, and complete the student portion of the Application for Fieldwork. You will receive an email after your site supervisor has signed your application and after the Fieldwork Coordinator has approved your application. You can log in to view your Pending Forms at any time to check the status of your application or send a reminder email to your Site Supervisor for their signature and approval of your application.

Field Experience Planning Form
Prior to completing this document, the candidate and Site Supervisor will review the Fieldwork Handbook, paying particular attention to the “Definition of Roles”. It is important to review the field experiences the program expects the candidate to gain during their internship and the evaluations that the Site Supervisor will complete to assess the candidate’s progress and competency. This information will provide guidance as you create a plan for this field experience. Please review the Field Experience Planning Form under Sample Documents at the end of this handbook so you are aware of the information needed to complete this form. After reviewing this information with your Site Supervisor, please visit the Student Resources webpage, click the “PPS Field Experience Planning Form”, and complete and submit the Field Experience Planning Form in Dynamic Forms. After you submit the form it will be sent to your Site Supervisor for review and approval, after which it will be submitted to your University Supervisor. The following steps will assist you in setting up a Toggl account and importing the project categories to which your hours can be assigned. You will only have to complete this process once as the same project titles are used in your future Field Work courses.

From a Desktop Computer:

1. Open the “PPS Toggl Projects.csv” File on the Student resources webpage
2. When the file opens, save the document to your computer (make sure to keep it a csv file when you save it)
3. Go to www.Toggl.com
4. Click “Sign Up” and either create a new account by entering your email address and a password or click “Sign up with Google” if you prefer to use a previously created Google account.

5. Click “Sign up for Free”

6. When you are logged in, click on the “More” tab from the menu bar and select “Import and Export”

7. Scroll down to “CSV Import” and click “Choose File”

8. Locate the “PPS Toggl Projects.csv” file that you saved to your computer and click “choose”

9. Click “Import Now”

10. After creating your account and uploading the project areas from the csv file on your desktop computer, you can download the “Toggl Work Time Tracker” app if you prefer to track hours on a tablet or smartphone.

**Fieldwork Hour Log Tracking & Reporting**

1. The candidate is to indicate the number of hours spent on assigned activities on their electronic field log in Toggl.

2. Hours should be logged in Toggl on an ongoing basis and will be reviewed by the University Supervisor at each seminar.

*To track your hours from a computer, log into your Toggl account*

- Click “Timer” on the menu bar on the left side of your screen
Click the image of the green clock on the right hand side of the screen (this selects automatic mode). Automatic mode allows you to enter the minutes worked vs. having to enter specific times. For example, you will enter 4 hours instead of 10:00am – 2:00pm.

When you are ready to track your time, you will click “Project/task” to select what project area your work falls under, enter the number of minutes you were working on that task, and confirm the date is correct. You do not need to type in the section “What are you working on?” as we are only tracking what project area your work falls under.

For projects with an * after the title, click the “tag icon” to indicate that they are “other ethnicity” or diversity hours. Then click the checkbox and click “Apply”. When you are ready to submit your entry, click the green check mark.

Example: Here is an entry from June 1st when I ran academic and career counseling groups with students for 4 hours. You can also see that I tagged these hours because I was working with students from an ethnicity other than my own. You only will only tag “other ethnicity” hours for projects that have an *
To track your hours from a handheld device, open the Toggl app and log in

- The first time you log in, you will see a screen informing you that you have not tracked any time yet. Before tracking any hours you will want to select manual mode, located on the bottom left corner of your screen (you will only need to do this once).

- To start tracking your fieldwork hours, click the + button on the bottom right corner of your screen, enter the number of minutes you worked on a specific task, and click “Set”.

- Specific times will populate automatically under your recorded minutes, this information does not need to be accurate as it will not be used and can be disregarded.

- Click “Add project…” and select the project area your task falls under. You do not need to add text under “What are you working on?”

- Click “Back” to return to your running hour log.

3. When your fieldwork hours are complete, you will fill out the “Field Log Overview” form and indicate the total “other ethnicity” hours, total attendance hours, and total overall hours you have worked. Please upload a PDF of your hour log summary report, hour log detailed report, and “other ethnicity” hour log detailed report from Toggl before submitting it to your Site Supervisor for an electronic signature. Your Site Supervisor will also need to review your “Field Log Overview” and attached hour log reports prior to completing your Summative Evaluation.

To generate your Hour Log Reports from a computer, log into your Toggl account

- An Hour Log Summary Report can be viewed on your handheld device at any time. You will need to use a computer to export a PDF of the three reports that need to be uploaded to your “Field Log Overview” form when you have completed all of your hours.

**Hour Log Summary Report**

- Select “Reports” from the side menu bar, click “Summary”, and change date range to “This Year” by selecting the drop down menu arrow. After selecting “This Year”, click your placement starting date and then click the ending date on the calendar. The date range for your total hours will appear at the top of the report.

- Click “Export”, select “Download as PDF”, save the file to your computer and attach it to your “Field Log Overview” form under “Hour Log Summary Report”
Hour Log Detailed Report

- Select “Reports” from the side menu bar, click “Detailed”, and change date range to “This Year” by selecting the drop down menu arrow. After selecting “This Year”, click your placement starting date and then click the ending date on the calendar. The date range for your total hours will appear at the top of the report.
- Click “Export”, select “Download as PDF”, save the file to your computer and upload it to your “Field Log Overview” form under “Hour Log Detailed Report”

“Other Ethnicity” Hour Log Detailed Report

- Select “Reports” from the side menu bar, click “Summary”, and change date range to “This Year” by selecting the drop down menu arrow. After selecting “This Year”, click your placement starting date and then click the ending date on the calendar. The date range for your total hours will appear at the top of the report.
- Click “Tag image” and check the box that says Tag other ethnicity hours and diversity hours for projects with an *
- Click the X to close the Tag menu box
- Click the green “Apply” box
- Click “Export”, select “Download as PDF”, save the file to your computer and upload it to your “Field Log Overview” form under “Other Ethnicity Hour Log Detailed Report”

4. Logs are to be completed and electronically submitted to your University Supervisor by the last seminar. Please keep in mind that you need to allow time for your Site Supervisor to review and approve your logs prior to the last seminar. Upon approval by your Site Supervisor, they will be electronically submitted to your University Supervisor. You will receive email notification after your Site Supervisor and University Supervisor have approved your hour logs. They will be kept on file by the University and will not be returned to the candidate. Please save a copy for your own records.

I have reviewed the guidelines for working in schools and understand what is expected of me as a field work candidate. Additionally, I have discussed the number of hours I must complete, the list of field experiences, and my assignments with my site supervisor. I understand that if I am not able to complete my assignments or the minimum number of field hours required, I will receive a “no credit” for the course and I will have to repeat the course and field hours.

### SITE SUPERVISOR AGREEMENT

I agree to sponsor and direct the candidate’s field work as indicated on the list of field experiences for the course. I have reviewed what is expected of me as a site supervisor as well as the assignments the candidate is expected to complete. I will be able to adequately supervise this candidate and the candidate will be able to complete the assignments at this site. Additionally, I understand that the candidate will observe me counseling and guiding students, and that the candidate, once acclimated, will work directly with students at this site. Although the candidate may perform many of the functions of a school counselor, I recognize that she is a counselor-in-training who requires regular supervision. Furthermore, I understand the number of field hours the candidate must complete while at this site. Finally, I understand that I must be available to meet with the University Supervisor during the semester to discuss the candidate’s progress and that I will contact that supervisor if I have concerns about the candidate’s performance.

| Site Supervisor Approval | -- Choose -- |
Prior to completing this document, the Candidate and the Site Supervisor will review the Fieldwork Handbook, paying particular attention to the “Definition of Roles”. It is important to review the field experiences the program expects the Candidate to gain during their internship and the evaluations that the Site Supervisor will complete to assess the Candidate’s progress and competency. This information will provide guidance as you create a plan for this field experience.

Please list the primary responsibilities, activities, meetings, events, etc. that the Candidate will participate in during their internship:

Supervision should include at least one hour of face-to-face (individual or group) supervision and feedback per week. How will this Supervision be structured at this site?

The University Supervisor will conduct one site visit for candidates enrolled in Practicum and two site visits for candidates enrolled in Field Studies during the course of the semester. At that time, they will meet with the Site Supervisor to secure feedback about the Candidate’s performance and any challenges they might be having that require remediation.
