CORE 21 Foreign Language Requirements

California Lutheran University’s general education requirement is proficiency in foreign language at the second semester level. (NOTE: for Greek, the requirement is met with GREE 326; for Hebrew, the requirement is met with HEBR 316). The requirement is waived for international students who verify academic study of their native language through the high school level. The foreign language requirement may be satisfied using American Sign Language.

Proficiency in a foreign language at CLU can be demonstrated in several ways:
1. Take two semesters of a foreign language
2. Transfer in coursework from another institution that meets the requirement
3. Place into the second semester of a foreign language and complete the second semester course
4. Show proficiency with a satisfactory score by taking the designated language exam in a proctored setting
